Solutions to enhance life quality

The name “Hader” stands for 60 years of history, competence, and experience.

Back in the day, in 1963, Helmut Hader founded his first factory in La Chaux-de-Fonds, Switzerland, hence establishing our brand with its rich history. Numerous patents and inventions of attachments and prosthetic solutions have since contributed to this very history and tradition; the high standard of those products is still used as reference in the dental field today.

While the spirit of Helmut Hader kept and keeps expanding across the globe, our true home remains in the heart of Switzerland. Here lies the core of our identity, our sense of perfection,

our inexhaustible drive for innovation. All of this is held together by our love for tradition and sustainability in everything we do.

In 2021, we revived the company’s original name, “HADER”, and re-branded in memoriam of Helmut Hader, our historical founder. We refocused on his values of innovation and quality, in combination with solid customer care.

HADER SOLUTIONS & DISTRIBUTION LTD. is the “One-Stop Shop” that delivers on high quality, has CE markings conforming with the new MDR, and offers fair prices on implantology and prosthetic instruments, precision attachments, and specialty prosthetic items.

Mission

Bring back your smile

Vision

Solutions to enhance life quality

Hader Solutions is committed to provide the highest quality products, services, and expertise to our partners in order to improve the quality of life of all involved.

IMPLANT BUDDY KIT

Service 99% of implants with the Hader Implant Buddy

The kit of drivers that features:

- Short and long drivers, color-coded for easy visibility
- Tapered driver tips for a stronger implant screw connection
- Convenient thumb knob fits directly into torque drivers
- Magnetic base that keeps all components secure and in place
- Entire Implant Buddy can be sterilized

Combine with the OMEGA adjustable torque wrench for the safest and most accurate torque control.

TORQUE WRENCHES

- 4mm square drive connection – Works hand in hand with the Implant Buddy driver set
- High precision calibrated torque
- Consistent and accurate – Guaranteed to be accurate to 6000 clicks, 300 sterilization cycles, or 3 years!
- User friendly – Easy ergonomic handle, autoclavable, simple maintenance
- CE marked

LUCKY

Fixed torque at 10 Ncm, 25 Ncm, 50 Ncm and 70 Ncm

RET WIRE (LAB USE ONLY)

	PART NAME	REFERENCE	DESCRIPTION
	Kit Ret Wire	1041001	Titanium anodized wire for incorporation into pre-drilled openings in denture teeth, providing retention in acrylic resin or composite. Includes: - 1 Wire holder - 3 Twist drills - 13 pieces of 80 mm long anodized wire
	Refill Ret Wire	1041002-1	Anodized wire (1.05mm diameter) to provide retention in denture material 13 pieces of 80 mm long anodized wire
	Ret Wire Spare Drills 3 PCS	1041003-3	3 twist drills for hand piece Used to prepare a threaded recess in denture teeth for the wire
	Ret Wire Tool	1041012-1	Handling tool for the ret wire kit

WORKING AIDS

	PART NAME	REFERENCE	DESCRIPTION
	Stippling Mandrel (Lab Use Only)	1041004-1	<ul style="list-style-type: none"> • 1/4 inch shaft to fit most standard lathe chucks. • The Stippler accepts four burs –either #2, #4, or #6
	Bidra Conversion Smart Polishing Cap	1041006-1	For full arch implant conversions, the Bidra Conversion Smart Polishing Cap fully protects both the inside and outside of the metal coping, preventing damage to the coping during pickup, trimming, polishing and finishing the prosthesis. Lab use only
	Bidra Conversion Smart Polishing Cap, Short	1041007-1	
	Wheel Burr 2 PCS	1041013-2	Wheel Burr. For lab use only
	Measuring Gauge	1041010-1	Sterilizable measuring gauge to determine the diameters of the most current ball attachments and abutments, as well as the bar dimensions. Facilitates the choice of the appropriate female. For lab use only.

	SITE B	1041020-1	<p>Bonding composite for fixing TITANAX retention parts and other parts to be cemented.</p>

02 | Attachment Systems

HADER CX INDIVIDUAL COMPONENTS

The Hader CX Dental Attachment System, a game-changer in dental technology.

Its design allows the female component to engage all around the ball, providing an increased area of retention for the utmost stability and confidence for your patients.

A distinctive advantage of the CX system is an audible click, which provides immediate tactile feedback and peace of mind to the user.

When the need for servicing arises, the Hader CX does not disappoint. With three retention options for females and replaceable threaded males, maintaining these attachments is both efficient

and cost-effective.

The standout feature of the Hader CX System is the remarkable ability to parallelize the female components. If the males are not aligned in perfect parallel, our exclusive paralleling mandrel allows for quick and precise adjustments without sacrificing any retention or stability.

The Hader CX Dental Attachment System is designed with user flexibility in mind. Whether it is crafting a prosthesis over post copings, implants, overdenture bars, or 30, 45, or 60-degree extracoronar partial dentures, the CX system is your go-to solution.

FEMALE COMPONENTS

	Hader CX Female Inserts	
	3 retention levels: White (Reduced) Yellow (Standard) Red (Increased)	H: 2.65 mm Ø 3.55 mm
	Yellow 30 PCS	5011019-30
	Yellow 6 PCS	5011019-6
	White 30 PCS	5011020-30
	White 6 PCS	5011020-6
	Red 30 PCS	5011021-30
	Red 6 PCS	5011021-6
	Combo Females 6 PCS	5011002
	Set of 6 Hader CX female inserts. 2 yellow - 2 red - 2 white	
	Hader CX Duplicating Female Duplicating dummy for casting metal partial frames.	
	30 PCS	5011023-30
	6 PCS	5011023-6

HADER CX POST

	Hader CX Bur Set	5011001
	Set of 3 burs for root canal preparation prior cementation of a Hader CX post.	
	Hader CX Threaded Post Cementable post in TITANAX.	
	Post only	5011028-1
	One piece ball & post	5011029-1

	Hader CX Metal Housing Made in TITANAX for inclusion into acrylic resin. H: 2.65 mm - Ø 4 mm	
	30 PCS	5011022-30
	6 PCS	5011022-6
	Hader Round Female Housing Adjustable female for acrylic resin. Includes plastic ring. H: 2.8 mm - Ø 3 mm	
	ORAX	5011003-1
	ORAX 20 PCS	5011003-20
	TITANAX	5011005-1
	TITANAX 20 PCS	5011005-20
	Hader Round Plastic Ring	5011007-1
	Plastic ring for the Hader Round female attachment. H: 1.65 mm - Ø 3.5 mm x Ø 2.9 mm	

	Hader CX Pre-Drilling Bur	5011015-1
	Pre-Drilling Bur used for root canal preparation.	
	Hader CX Cavity Bur	5011016-1
	Cavity Bur to prepare the canal for the base of the 5011028 post.	
	Hader CX Precision Reamer	5011017-1
	Precision Reamer to calibrate the diameter for the 5011028 post.	

MALE COMPONENTS

	Hader CX Male Plastic Keeper Patterns	5011041-1
	Four angles (0°, 30°, 45°, and 60°) for axial and extracoronar structures. Lab use only.	
	Hader Cemented Male Base	5011042-1
	Base in TITANAX with M2 threading for Hader CX males. H: 1.9 mm - Ø 2.3 mm	
	Hader Threaded Base Ring	
	This Threaded Base Ring serves as a support for the Threaded Males. H 1.3 mm - Ø 3.4 mm - M2	
	IRAX	5011037-1
	NOPRAX	5011038-1
	Hader CX TITANAX Male	5011025-1
	For cementation into a cast male keeper. Total H: 3.95 mm Ball H: 2.05 mm - Ø 2.25 mm	

	Hader CX Threaded Male Ball	
	Removable spherical male in TITANAX for threading into a M2 base ring. Ø 2.25 mm - Hex: 0.9 mm»	
	Standard	5011010-1
	H: 2.8mm	
	Long	5011011-1
	H: 3.1mm	
	Hader CX Castable Male	
	Spherical burn out male (2.25mm Ø) for incorporation into post copings and bars. Lab use only. H: 2.4mm Ball Ø 2.25mm - Base Ø 3.2mm	
	1 PCS	5011009-1
	50 PCS	5011009-50
	Hader CX Green Castable Male Pattern	
	Male for casting of hard alloys. Total H: 3.95 mm Ball H: 2.05 mm - Ø 2.25 mm	
	1 PCS	5011027-1
	50 PCS	5011027-50

HADER CX TOOLS

	Hader CX Activating Tool	5011012-1
	Used to tighten the Hader Round Female segments and increase retention.	
	Hader CX Deactivating Tool	5011013-1
	Used to spread the Hader Round Female segments and decrease retention.	
	Hader CX Insertion Tool	5011014-1
	Tool to insert the plastic females into the CX metal housing.	
	Hader Round Model Analog	5011008-2
	Analog for laboratory fitting of the prosthesis. 2 Analogs + 2 O-ring. H: 16 mm - Ø 2.25 mm	
	Hader CX Implant Ball Analog	5011030-1
	For indirect processing and relines. H: 9.5 mm - Ø 2.25 mm	
	Hader Square-Type Driver 0.9mm	5011040-1
	Screwdriver for screwing a threaded male into a threaded base.	
	Hader CX Ball Abutment Driver	
	Latch Type	1041005-1
	Square Type	1041011

	Hader O-Ring Space Maintainer	5011024-6
	Elastic ring to keep space between male and female during processing.	
	Hader Round Tin Spacer	5011036-1
	0.4mm thick space maintainer to be used during indirect processing of post-copings. Lab use only.	
	Hader Paralleling Mandrel	
	Male	5011034-1
	Hader CX Cup Burr	5011018-1
	Cutting tool for adjusting the shape of the Hader CX casted males. Lab use only.	
	Hader CX Protection Cap 2 PCS	5011039-2
	Cap for protecting the threaded base during the manufacture of the metal structure.	
	M2 Female Impression Tool	5011043-2
	Analogue for the 5011044 male impression tool 2 PCS + 2 Space Maintainers	
	M2 Male Impression Tool	5011044-2
	Male impression tool for the 5011028 Hader CX post. 2 PCS

HADER VX INDIVIDUAL COMPONENTS

The Hader VX Attachment System: A Legacy of Versatility, Security, and Unmatched Value.

The Hader VX has earned its reputation as the most popular and versatile bar attachment globally. With decades of clinical success, it is the trusted choice for dental professionals everywhere.

When it comes to patient satisfaction and security, the Hader VX excels. It offers the best retention for prostheses, providing your patients with unwavering confidence in their dental solutions.

With three levels of retention and easily replaceable plastic females, servicing becomes a hassle-free, cost-effective endeavor.

The Hader VX system allows dental professionals to craft prostheses over a bar or use it as an extracoronary attachment, providing exceptional flexibility in treatment options.

When used as an extracoronary attachment, the Hader VX does not compromise on aesthetics. It combines superb retention with visually pleasing results, ensuring both functionality and a beautiful smile.

FEMALE COMPONENTS

Hader VX Female Inserts		
	3 retention levels: White (Reduced) Yellow (Standard) Red (Increased)	H: 2.7 mm Ø 1.7 mm L: 5 mm
	Yellow 30 PCS	5021010-30
	Yellow 6 PCS	5021010-6
	White 30 PCS	5021011-30
	White 6 PCS	5021011-6
	Red 30 PCS	5021012-30
	Red 6 PCS	5021012-6
	Combo Females 6 PCS	5021020
	Set of 6 Hader VX female inserts. 2 yellow - 2 red - 2 white	
	Combo Females 6 PCS	5021022
	Set of 50 Hader VX female inserts. 25 yellow - 10 red - 15 white	

	Hader VX Traditional Metal Housing	
	Thin housing in stainless steel for inclusion in acrylic resin.	
	W: 5.0 mm - H (with Clip): 1.2 mm Thickness: 0.2 mm	
	30 PCS	5021004-30
	6 PCS	5021004-6

	Hader VX Alignment Metal Housing	
	The parallel grooves on the top of the alignment housings provide an easy way to assure clips have not rotated prior to processing and assure a parallel path of insertion/draw.	
	W: 4.2 mm - H (with Clip): 1.5 mm	
	30 PCS	5021005-30
	6 PCS	5021005-6

HADER VX INDIVIDUAL COMPONENTS

CASTABLE ELEMENTS

	Hader VX Vertical Bar Male with 45° inclination. H: 5.9 mm (may be reduced up to 3 mm) - Ø: 1.8 mm - Lab use only.	
	With Mandrel 30 PCS	5021008-30
	With Mandrel 6 PCS	5021008-6
	With Extension 30 PCS	5021009-30
	With Extension 6 PCS	5021009-6
	Hader VX Vertical Cast Element Lost wax plastic housing for casting, Lab use only. H: 7 mm - L: 12 mm - Ø 3.3 mm	
	30 PCS	5021013-30
	6 PCS	5021013-6

	Hader VX Plastic Bar Plastic Bar model for the manufacturing of the metal structure. The low bar is for low-height. articulation. - Lab use only. L: 50 mm H: 8.25mm standard - 4.00 mm short (may be reduced to 3.0 mm)	
	Standard 30 PCS	5021002-30
	Standard 6 PCS	5021002-6
	Short 30 PCS	5021003-30
	Short 6 PCS	5021003-6

HADER VX TOOLS

	Hader Green Processing Spacers The tail of the spacer is as wide as the widest part of the Hader clip. This makes it simple to put in and take out the clip. Additionally, it creates a wide tunnel, which prevents any harm to the clip when inserting or removing the prosthesis. L: 5 mm - Lab use only	
	30 PCS	5021001-30
	6 PCS	5021001-6
	Hader VX Paralleling Mandrel	
	Male	5021006-1
	Female	5021007-1
	Hader VX Guide Vertical Plastic mandrel for the VX vertical bar. L: 26 mm	
	1 PCS	5021016-1
	50 PCS	5021016-50
	Hader Aluminium Analog	
	5021018-1 Analog for processing relines, remakes, and new cases. H: 12.7 mm - L: 50 mm Lab use only	

	Hader VX Insertion Tool - Yellow Used to insert plastic females in dentures over bars. L: 47.2 mm	
	1 PCS	5021014-1
	50 PCS	5021014-50
	Hader VX Insertion Tool - Red	
	5021015-1 Used to insert a Hader VX plastic female when attached on the side of the teeth. L: 43.4 mm	
	Hader VX Analog Vertical	
	2 PCS	5021017-2 Brass analog male part for repairing of models or for elaboration of a new prosthesis. L: 9 mm - H: 4 mm Lab use only
	Hader White Delrin Analog Bar	
	2 PCS	5021019-2 Non-adhering analog for the working model. Used for repairs, relines, or duplicating. H: 8.22 mm - L: 49.3 mm Lab use only

HADER SX INDIVIDUAL COMPONENTS

The Hader SX Attachment System: Where Aesthetics Meets Precision and Versatility

Featuring a sagittal ball attachment with a segmented female, the Hader SX excels in partial dentures and implant bar applications, providing a superior level of precision and flexibility.

Hader SX is available in two ball sizes, the Mini 1.7 mm and Standard 2.2 mm, ensuring a tailored solution for every patient.

The Mini SX, requiring only 3.1 mm of space, is an ideal choice for cases with limited room, offering a solution where space is a premium.

The replaceable plastic female, available in three retention levels, can be seamlessly incorporated into the framework or housed inside our exclusive metal housing. The male component offers various options, including plastic to cast in a hard alloy, NOPRAX for non-precious alloys and a threaded male with a special cast-on base ring.

FEMALE COMPONENTS

Hader SX Female Inserts	
	SX 1.7 H: 3.1 mm Ø: 3.1 mm
	SX 2.2 H: 4.1 mm Ø: 4.2 mm
	3 retention levels: White (Reduced) Yellow (Standard) Red (Increased)
	1.7 Yellow 30 PCS 5031004-30
	1.7 Yellow 6 PCS 5031004-6
	2.2 Yellow 30 PCS 5031013-30
	2.2 Yellow 6 PCS 5031013-6
	1.7 White 30 PCS 5031005-30
	1.7 White 6 PCS 5031005-6

HADER RX INDIVIDUAL COMPONENTS

The Hader RX, where innovation meets reliability to revolutionize the dental field. These versatile male spring pins, available in the sizes, M2 and M3, are engineered to provide resilience and rigidity, ensuring precise engagement with the females. Ideal for a wide range of applications, from over bars and post copings to extracoronal constructions, the Hader RX system offers unmatched flexibility.

When space allows, we recommend opting for the M3 size for enhanced stability. For extracoronal use, our males come in three different angulations

(30°, 45°, and 60°), ensuring a periodontal-friendly design and impeccable aesthetics. With over 60 years of clinical use, Hader RX has earned the trust of dentists and dental technicians worldwide for its proven security and patient satisfaction.

Hader RX is easy to service, as males can be effortlessly replaced. For cases involving worn females, we offer slightly larger males.

Hader RX, a name synonymous with confidence and security. Keeping prostheses attached and patients delighted.

MALE COMPONENTS

	Hader RX Spring Pin Resilient 2 PCS PALLAX. Standard head - Ø 1.88 mm M2: Ø2 mm - H: 2.7 mm M3: Ø3 mm - H: 3.15 mm 2 spring pins + 2 space maintainers	
	M2	5051112-2
	Hader RX Spring Pin Rigid 2 PCS PALLAX 2 spring pins	
	M3	5051111-2
	Hader RX Spring Pin Long 2 PCS Extra long spring pin (0.3 mm longer). PALLAX. 2 pieces.	
	M2	5051043-2
	M3	5051017-2
	Hader RX Spring Pin with Larger Head 2 PCS Removable spring pin. PALLAX. 2 PCS For worn females, use one of the spring pins with larger head. Use the spring pin indicator set (5051078) to verify the diameter of the female.	
		Larger head Red Ø1.95mm Blue Ø2.02mm Black Ø2.09mm M2: Ø2 mm H: 2.7 mm M3: Ø3 mm H: 3.15 mm
	M2 Resilient Red 1.95	5051041-2
	M2 Resilient Blue 2.02	5051042-2

HADER RX TOOLS

	Hader RX Activating tool	5051004-1		Spring Pin Indicator Set	5051078
	Activating tool and screw-driver.			Set of 4 indicators to verify the diameter of the females. (1.88, 1.95, 2.02, 2.09)	
	Hader RX Laboratory Key	5051094-1		Hader RX Retention Adjusting Accessory	5051086-1
	For M2 and M3.			Instrument to deactivate spring Pins. For M2 and M3. For lab use only.	
	Hader RX Paralleling Mandrel Axial			Hader RX Paralleling Mandrel for Females	5051046-1
	M2	5051047-1		For extracoronar females. Lab use only.	
	Hader RX Paralleling Mandrel Profile			Hader RX Bonding and Sandblasting Tool	5051089-1
	M2	5051048-1		Paralleling mandrel for fixing and sandblasting TITANAX females. For lab use only.	
	Hader RX Soldering Accessory 2 PCS			Hader RX Diamond Drill 2 PCS	5051001-2
	M2	5051093-2		Diamond bur for the bonding technique. For lab use only. 2 PCS	
	M3	5051005-2		Hader RX Carbide Drill	5051002-1
	Soldering accessory for extracoronar retention parts. For lab use only.			Carbide bur with smooth stop for the metal sleeve. For lab use only.	
	Hader RX Axial Soldering Accessory 2 PCS				
	For axial base rings. Lab use only.				
	M2	5051051-2			
	M3	5051049-2			

HADER RX INDIVIDUAL COMPONENTS

HADER RX TOOLS

	Hader RX Male Impression Tool 2 PCS For axial attachments. To be used with the female impression tool 5011043 or 5051110.	
	M2	5011044-2
	M3	5051109-2
	Hader RX Female Impression Tool 2 PCS + 2 Space Maintainer To be used with the male 5051109, or with the spring pin, space maintainer and the 5051088.	
	M2	5011043-2
	M3	5051110-2
	Hader RX Female Analogue 2 PCS + 2 Space Maintainer For repair and rebasing technique. For lab use only. 2 pieces.	
	M2	5051092-2
	M3	5051088-2
	Hader RX Protection Cap Protection cap in TITANAX for threading into the base ring 2 PCS.	
	M2	5011039-2
	M3	5051108-2
	Hader RX Space Maintainer Stainless steel. 0.3 mm thick. 10 PCS	
	M2	5051077-10
	M3	5051076-10
	Hader RX Large Space Maintainer Tinfoil. 0.4 mm thickness for resilient constructions. For lab use only.	
	Hader RX Resilient Working Dummy 2 PCS Stainless steel. Lab use only. 2 pieces	
	M2	5051091-2
	M3	5051087-2
	Hader RX Profile Plastic Wax Wax with plastic filler in 2 x 8° patterns. For lab use only. 4 PCS	
	Hader RX Build-Up & Milling Plastic Wax Wax with plastic filler for the build-up and milling technique. Lab use only.

HADER RX KITS

	DESCRIPTION	
	Hader RX TITANAX Bonding Kit Axial	
	Kit with retention part for bonding, with TITANAX female for cementation. For use in post copings and bar constructions.	
	1x RX retention part bonding 1x RX spring pin w/space maintainer 1x RX axial female TITANAX w/keeper 1x RX large space maintainer	
	M2	5052016
	M3	5052007
	Hader RX TITANAX Bonding Kit Extracoral	
	Kit with retention part for bonding, with TITANAX female for cementation. For use in extracoral preparations.	
	1x RX retention part bonding 1x RX spring pin w/space maintainer 1x RX female TITANAX w/keepers	
	M2	5052012
	M3	5052004
	Hader RX TITANAX Winged Acrylic Kit	
	Kit with retention part for winged acrylic fixation, with TITANAX female for cementation.	
	1x RX retention part winged acrylic 1x RX spring pin w/space maintainer 1x RX female TITANAX w/keepers	
	M2	5052010
	M3	5052002
	Hader RX M3 PLATIRAX Acrylic Kit	
	M3 kit with PLATIRAX female for casting in all alloys and two sets of attachments and retention parts for acrylic fixation.	
	2x RX retention part winged acrylic 2x RX spring pin w/space maintainer 1x RX cast-on female	
	Resilient	5052018
	Rigid	5052021

	DESCRIPTION	
	Hader RX TITANAX Acrylic Kit Axial	
	Kit with retention part for acrylic retention, with TITANAX female for cementation. For use in post copings and bar constructions.	
	1x RX retention part circular acrylic 1x RX spring pin w/space maintainer 1x RX axial female TITANAX w/keeper 1x RX large space maintainer	
	M2	5052017
	Hader RX TITANAX Soldering Kit Axial	
	Kit with retention part for soldering, with TITANAX female for cementation. For use in post copings and bar constructions.	
	1x RX retention part soldering 1x RX spring pin w/space maintainer 1x RX axial female TITANAX w/keeper 1x RX large space maintainer	
	M2	5052024
	Hader RX TITANAX Circular Acrylic Kit	
	Kit with retention part for circular acrylic fixation, with TITANAX female for cementation.	
	1x RX retention part circular acrylic 1x RX spring pin w/space maintainer 1x RX female TITANAX w/keepers	
	M2	5052014
	Hader RX TITANAX Soldering Kit	
	Kit with retention part for soldering, with TITANAX female for cementation. For use in extra coronal preparations.	
	1x RX retention part soldering PALLAX 1x RX spring pin standard 1x RX female TITANAX w/keepers	
	M2	5052008

BARS

STANDARD BARS - L: 50mm - W: 2.2mm - H: 3mm

	DESCRIPTION	
	Bar Oval Resilient Standard Plastic For lab use only.	
	4 PCS	5061022-4
	50 PCS	5061022-50
	Bar U-Shaped Rigid Standard Plastic For lab use only.	
	4 PCS	5061024-4
	50 PCS	5061024-50
	Bar Oval Resilient Standard 5cm ORAX	
	1 PCS	5061010-1

MINI BARS - L: 50mm - W: 1.6mm - H: 2.3mm

	DESCRIPTION	
	Bar Oval Resilient Mini Plastic For lab use only.	
	4 PCS	5061021-4
	50 PCS	5061021-50

STANDARD RIDERS - L: 50mm - W: 5mm - H: 3.5mm

	DESCRIPTION	
	Bar Rider Standard With Retention Adjustable standard rider with retentions for acrylic resin and space maintainer.	
	INOX	5061007-1
	ORAX	5061008-1
	PALLAX	5061009-1
	Bar Rider Standard Without Retention Adjustable standard rider.	
	ORAX	5061025-1
	PALLAX	5061026-1

MINI RIDERS - L: 50mm - W: 4mm - H: 2.8mm

	DESCRIPTION	
	Bar Rider Mini With Retention Adjustable mini rider with retentions for acrylic resin and space maintainer.	
	INOX	5061014-1
	ORAX	5061015-1
	PALLAX	5061016-1
	Bar Rider Standard Without Retention Adjustable standard rider.	
	ORAX	5061029-1

STANDARD PARALLELING MANDREL

	DESCRIPTION
	Bar Standard Paralleling Mandrel For lab use only.
	5061001-1

MINI PARALLELING MANDREL

	DESCRIPTION
	Bar Mini Paralleling Mandrel For lab use only
	5061002-1

ALLOYS AND MATERIALS

IRAX: AU 60 - PT 24 - PD 15 - IR 1

INTRODUCING THE HADER DIGITAL LIBRARY: YOUR GATEWAY TO CUTTING-EDGE DENTISTRY

At Hader Solutions, we understand that the dental industry is evolving rapidly. Digital dentistry is the way of the future, and we are committed to helping dental professionals stay ahead of the curve. That's why we proudly present our revolutionary Hader Digital Library, a game-changer in the world of dental attachments.

UNLOCK THE POWER OF DIGITAL DENTISTRY

In today's fast-paced world, dental laboratories need solutions that are efficient, precise, and up-to-date. The Hader Digital Library empowers you to embrace the latest digital production techniques, allowing you to craft dental prostheses with unparalleled accuracy and ease.

YOUR DIGITAL JOURNEY BEGINS HERE

With just a few clicks, you can access our Hader Digital Library. The ultimate resource for dental professionals. Explore an extensive range of digital files tailored for the most popular CAD-CAM systems, including Exocad, 3-Shape, and Dental Wings.

THE ATTACHMENTS YOU TRUST, NOW IN DIGITAL

The Hader Digital Library offers a treasure of digital files for our renowned Hader attachments, including the CX, VX, SX, and RX systems. Craft prostheses that fit perfectly and provide superior patient comfort, all at your fingertips.

All relevant kits in this catalogue are easily identified with the hader CAD-CAM logo.

JOIN THE DIGITAL REVOLUTION WITH HADER SOLUTIONS

Ready to revolutionize your dental laboratory? It's time to unlock the full potential of digital dentistry with the Hader Digital Library. Visit our website at www.hader.eu, or **scan the QR code** to request your access today, and take your dental practice to new heights.

WELCOME TO THE FUTURE OF DENTAL ATTACHMENTS. WELCOME TO HADER.

SPONSORING OFFICIAL PARTNER OF THE MINI-TRANSAT 2023

BENOÎT ALT

From Lentigny in Switzerland, Benoît Alt has already made great strides towards his dream of becoming one of Sailing's Great Names. Originating from a family of non-sailors, he fell in love with sailing in Estavayer, Switzerland.

Since the discovery of this great passion in 2012, he has been sailing on every available body of water – and still never lost his connection to lake Neuchâtel in Switzerland, where it all started.

WHAT IS THE MINI-TRANSAT?

A solo transatlantic race between Les Sables-d'Olonne and Guadeloupe – with no assistance or electronic means, on boats no longer than 6.5 metres.

The Mini-Transat used to be decried for being too dangerous and filled with enormous risks. However, since those starting days, the Mini-Transat has gradually become an almost compulsory addition to the CV of every future skipper. Many sailors with big names in ocean racing have participated in it.

For more information visit:
benoitalt.ch
minitransat.fr

«We all live with dreams and plans. Each of us will, one day or another, want to take on new challenges that will change our life. Let us dare to take the plunge and give ourselves the chance to achieve them.»

Benoît Alt
