VARSEOSMILE CROWN PLUS 3D PRINTING MATERIAL

A tooth-coloured, ceramic filled hybrid material for 3D printing of permanent single crowns, inlays, onlays and veneers.

- Excellent aesthetics with a balanced ratio of opacity and translucency.
- Fluorescence resembles that of the natural tooth.
- Low tendency to age and discolour.
- Low plaque accumulation due to smooth surface.
- High comfort thanks to low cold and heat sensitivity.
- Available in VITA* classical shades: A1, A2, A3, B1, B3, C2, D3 (250g bottles).
