## Nobilcam - MaxMultilayer-4D Zirconia

The All-in-one Solution for dental restorations

**MaxMultilayer-4D: 15 layers of Zirconia!**

MM-4D achieves the best that zirconia restorations have to offer; including permeability, strength, and hardness. Furthermore, 8 layers of powder showing 15 overlapping layers of gradient effects provides the optimal product for full-arch implant-supported monolithic zirconia restorations in terms of both aesthetics and functionality.

Available in VITA® Classic shades

- Natural transition: 8 layers of multilayer zirconia; 15 overlapped layers
- Translucency: 43%-53%
- Strength: 800Mpa-1200Mpa
- All areas of applications: From a single crown to full arch bridge

## PMMA blanks

Transparent acrylic blocks made from polymethyl methacrylate. They are durable and lightweight, making them ideal for use in many applications.

Available in various tooth shades, incl. Pink, Clear or Full Denture blocks in various sizes.
